

MAG Biosystems™

FRAP-3D™

Applications

FRAP and iFRAP studies

Acceptor photobleaching

Photoactivation studies with PA-GFP, Dronpa, and KFP

Photoconversion studies with EOS, Kaede, and Dendra

QUANTITATIVE IMAGING SYSTEM
FOR PHOTBLEACHING AND PHOTOACTIVATION

Demo

MAG BIOSYSTEMS

MAG Biosystems™, a Photometrics® systems brand, will be demonstrating the new FRAP-3D™. During this event, the FRAP-3D imaging system will be available to image your samples. Please contact us for more information.
